

ACADEMY SUMMIT

SPONSORSHIP PACKAGE

**TUE 10 AND WED 11 SEPTEMBER 2024
HILTON MANILA, NEWPORT WORLD RESORTS,
PHILIPPINES**

The logo features a stylized black spade symbol with the lowercase letters 'iag' in a gold, sans-serif font inside it. To the right of the spade, the words 'ACADEMY' and 'SUMMIT' are stacked vertically in a bold, black, sans-serif font.

The **IAG Academy** was founded in 2021 by **Inside Asian Gaming**, to advance professionalism and education within the land-based Integrated Resort industry and to recognize industry executives and their contributions.

The **IAG Academy Summit** is a two-day summit bringing together the best minds in the Asian gaming industry. With content developed by IAG's Vice Chairman and CEO Andrew W Scott and Managing Editor Ben Blaschke, it will feature a host of speakers from across the region offering their insights by a range of methodologies. These will include traditional panels and presentations as well as more innovative formats never before witnessed at industry trade shows in Asia.

The **IAG Academy Summit** does things differently, setting itself apart from other events by being innovative, creative and genuinely informative. We will always listen to the industry and put the industry's needs first. We will strive for interesting and creative presentation formats, and genuinely interesting speakers with real value to offer.

The **IAG Academy Summit** made a successful debut in 2023 and returns this year bigger and bolder, with a clear vision of providing something a little different to the usual industry offerings. It was with this in mind that IAG first progressed with further development of the IAG Academy and established the **IAG Academy Summit**.

The **IAG Academy Summit** will again bring together some of the region's genuine thought leaders for a series of sessions aimed at being both informative and entertaining.

The Summit is planned to take place over two days in 2024 — Tue 10 and Wed 11 September — but may well expand to three days in 2025, should the industry express a desire for it.
